

BELIEVE STRIKE WILL END TODAY

GENERAL COMMITTEE OF UNITED MINE WORKERS, IN SESSION AT INDIANAPOLIS, BELIEVE END NEAR.

By the Associated Press
INDIANAPOLIS, Dec. 10.—The general committee of the United Mine Workers of America convened shortly before 10 o'clock this morning for further consideration of President Wilson's proposal for ending the strike of 400,000 bituminous coal miners of the country. It was generally expected that the proposal providing for the immediate return to work of the miners at an increase of 14 percent in wages and the appointment of a commission of three men to readjust wages would be accepted before the conference adjourned for the day.

As the committee which consists of international and district officers and members of the executive board and scale committee gathered gossip as to the cause of the prolonged session was rife. With very few exceptions, however, all agreed that President Wilson's proposal would be accepted some time today.

One high official of the miners who asked that his name be withheld said most of the argument yesterday was on the request of Illinois miners that the Cleveland convention be reconvened to act on the proposal of President Wilson. Another rumor stated that members of the general committee from Illinois late last night had agreed to accept the proposal today.

WASHINGTON, Dec. 10.—Representatives of the United Mine Workers of America today voted down a proposal to reject the strike settlement offer made by President Wilson, according to information received at Washington from Indianapolis where the union of miners are in session.

A second motion that the President's proposal be submitted to a referendum vote of the members of the union which would involve delays, also was said to have been voted down.

Acting President Lewis of the Mine Workers, according to information, said the president's offer would be accepted before night.

Habit of Decision.
Most people who have succeeded in any direction of activity can trace the measure of their success to the habit of deciding things for themselves. One of the greatest temptations we have is to confide in others. By yielding to it we not only become a nuisance to our friends but keep on lowering our own powers of resistance.

Elephants live to an age of 120 years.

SEVERE BLIZZARD GRIPS THE COUNTRY

TRAFFIC TIED UP AND PEOPLE SUFFERING OVER MIDDLE WEST AND NORTHWESTERN STATES.

By the Associated Press
CHICAGO, Dec. 10.—Below zero in temperature prevailed today in virtually all districts from the Mississippi valley to the Rocky Mountain region and the cold wave being still on its western invasion with sub-normal temperature of 20 to 50 degrees. In many points of the western region many small cities and towns were destitute of coal and suffering was reported with more to be expected unless moderation of the severe weather brings quick relief. Montana and northern Idaho were the chief sufferers.

As a further coal conservation measure, the most severe curtailment of passenger service ever known was effective today with the extension of the railroad administration's saving order to the eastern region. The order already was operating on other railroads. It was estimated that 15,000 tons of coal will be saved daily by it and that until the end of the present week it would be necessary to save an additional two hundred train miles daily.

In eastern Washington and Oregon one of the worst snow storms in history was recorded. About Redding, Calif., five inches of snow had fallen today, an unusual amount for that region. It gradually deepened north to Bend, Ore., where twenty-eight inches fell, the heaviest since 1884.

TULSA SWEEPED BY DISASTROUS FIRE THIS MORNING

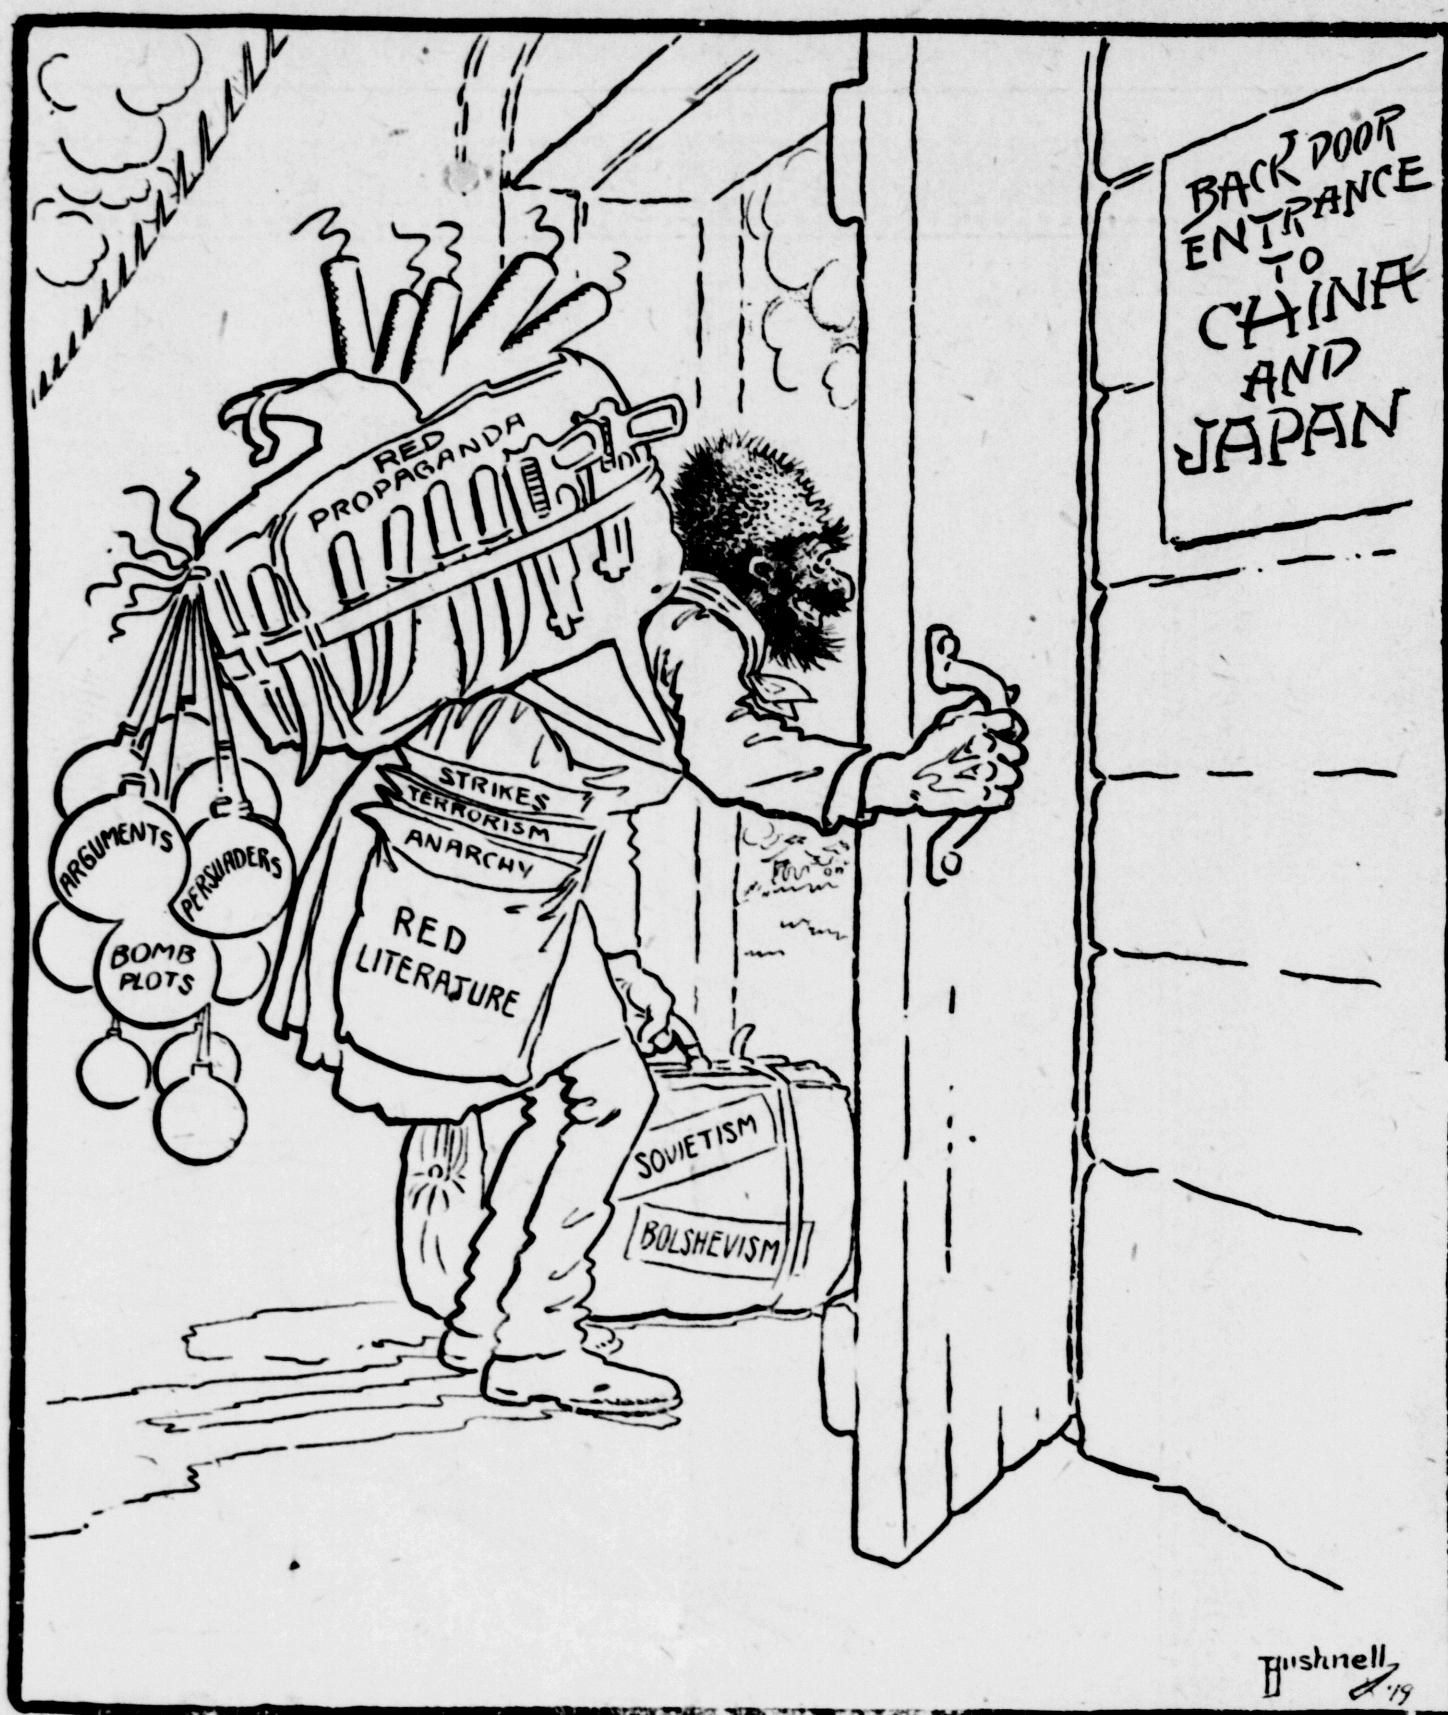

By the Associated Press
TULSA, Okla., Dec. 10.—Fire which broke out at 3 o'clock this morning in the heart of the business district totally destroyed the R. C. Geck Lumber yard and the Alexander Block, causing damage estimated at \$200,000. A faulty gas stove in the basement of the Alexander Block, a two story building, is believed to have caused the fire. It was reported under control at 9 o'clock.

BOLSHEVIKI BEGINS A NEW OFFENSIVE

By the Associated Press
REVAL, Estonia, Dec. 10.—The Bolsheviks have begun a new offensive on the Narva front. After terrific artillery fire, ten assaults were delivered upon the Estonian position. All the attacks were repulsed, the reports state, with heavy losses to the Bolshevik forces.

REPUBLICANS WANT TO CLEAN UP MESS

GOVERNOR OF PENNSYLVANIA SAYS REPUBLICAN PARTY CONFIDENT OF VICTORY AT NEXT ELECTION.

By the Associated Press
WASHINGTON, Dec. 10.—Governor Sproul of Pennsylvania in a keynote speech at the meeting today of the Republican national committee attacked the administration's Mexican policy and declared the Republican party approached the coming presidential campaign with confidence that the people would endorse its policies.

His outline of these included a better relation between capital and labor, economy and business management in administration, a firm handling of the Mexican situation, restoration of Americanism and constitutional government, and a sound solution of the railroad problem.

Referring briefly to the question of peace, the Governor declared that the Republican citizenship had "endeavored to co-operate in the inclusion of the latter with only such limitations as will preserve to this government its full right to determine its own affairs" under the constitution.

"We must prepare," said Governor Sproul, "not only to clean up the governmental mess in which we find ourselves, but we must lay our plans for restoring the nation to the position of respect which it once held."

DOES ANYONE KNOW ANYTHING OF WILDER

The remains of West Wilder are now at the Crisswell undertaking parlors in Ada. Mr. Wilder died at the home of W. P. Morris on the Byrd's Mill road early Monday morning. He and W. A. Lloyd of Ardmore stopped at the Morris home to spend the night and Wilder became very ill and died early the following morning.

It is said that Wilder has relatives in Ada and Mr. Crisswell is very anxious to get in communication with them. If any reader knows anything of Wilder or his relatives let him communicate with Mr. Crisswell.

LEADING FORCES ON BALTIC FRONT

Col. Von Lettow Vorbeck, above, and Col. Avaloff-Bernhardt.

Col. Von Lettow Vorbeck, at the head of his African troops and a force of 30,000 Germans, recently crossed the frontier into Lithuania, according to dispatches. They are meeting with stiff opposition from the Letts.

Col. Avaloff-Bernhardt is the leader of the Russian Baltic army which co-operated with the German army of General Von der Goltz in the capture of Riga. He now declares he is friendly with the allies and his aim is to fight the Bolsheviks.

PRODUCTION OF OIL IN MEXICO ALMOST CEASED

By the Associated Press
WASHINGTON, Dec. 10.—Production of oil in Mexico practically has ceased as the result of the decision promulgated by Carranza and the general attitude of the Mexican government. Chairman Payne, chairman of the shipping yards, was told today by a delegation of American oil men headed by F. R. Kellogg of New York.

RAINS IN SOUTH CAUSE DISASTER

THE SUBSEQUENT DROP IN TEMPERATURE EXPECTED TO CAUSE MUCH SUFFERING IN CERTAIN QUARTERS.

By the Associated Press
ATLANTA, Ga., Dec. 10.—Continental rains over the greater part of the South, which at first had proven a blessing by aiding hydro-electric plants to operate without coal, today had continued in such force as to flood rivers in Alabama, Georgia and Mississippi, causing thousands of dollars' damage and at least five deaths.

Ten inches or more of rain at various points in Alabama and Georgia, fair weather and a cold wave predicted for Alabama and Mississippi and it was believed the rains would be over in Georgia during the day.

The drop in temperature was expected to cause much suffering around Meridian, Miss., where the floods had left thousands of persons homeless after a rainfall of ten inches.

Another Case the Equal of That of Hardboiled Smith

By the Associated Press
NEW YORK, Dec. 10.—Brutal treatment and even deliberate torture of enlisted men of the American Expeditionary forces are charged against Capt. Charles W. Dexter, formerly commanding officer of the 38th Military Police Company, whose trial by court martial opened at Governor's Island today. The evidence was expected to be as sensational as in the trials of Lieut. (Hardboiled) Smith, and Sergeant Ball who now are serving prison sentences for brutality to American soldiers in Paris.

WEATHER FORECAST
Probably fair tonight and Thursday, with rising temperature.

WILSON OPPOSES MEXICAN BREAK

PLAN IS DROPPED AFTER PRESIDENT SAYS HE WOULD REGRET TO SEE RELATIONS SEVERED.

By the Associated Press
WASHINGTON, Dec. 8.—The resolution asking President Wilson to break off diplomatic relations with the Carranza government were abandoned today by republican leaders in the senate after the president had informed Senator Fall of New Mexico, its author, that he would "be gravely concerned to see any such resolution pass the congress."

In announcing after a conference with Senator Fall and Brandegee of Connecticut that the foreign relations committee would take no action on the resolution, Senator Lodge said:

Responsibility on President
"We want to help, but now the entire Mexican situation goes to the president. The responsibility is on his shoulders. Let it rest there."

Passage of the resolution, the president wrote Senator Fall, would "constitute a reversal of our constitutional practice, which might lead to very grave confusion in regard to the guidance of our foreign affairs."

Declaring that the initiative in directing relations with foreign governments was assigned by the constitution "to the executive and to the executive only," Mr. Wilson said he was confident that "the only safe course" was "to adhere to the prescribed method of the constitution."

Fall Takes Issue.
"We might go very far afield if we departed from it," he said.

Senator Fall in a statement tonight took issue with the president that the senate could not advise on matters affecting relations with foreign governments until requested to do so by the president, and said there were precedents to support him. He also said he would again request the committee to postpone action on his resolution "or upon any phase of the Mexican matter" until the president had had time to give the subject his consideration.

Before the president dispatched his letter, the senate foreign relations committee held an hour's session for discussion of the Mexican situation including the Carranza oil decrees, which have been the subject of diplomatic correspondence between the United States and Mexico, but at the suggestion of Senator Fall, action on his resolution was deferred until the president had expressed his views.

Data Made Public.

Senator Fall tonight made public the memorandum which he sent the president dealing with the results of the investigation of the senate committee, of which the New Mexico senator is chairman. Part of this information was given Mr. Wilson last Friday by Senator Fall, when he and Senator Hitchcock, democrat, Nebraska, called at the White House to discuss the Fall resolution.

Mr. Wilson's statement in his letter that what the New Mexico senator had told him of the investigation "prepared" him to find in the memorandum matter of "the greatest importance" was interpreted by some senators as meaning that the president had not yet had time to study Mr. Fall's report.

Wilson Plan Unknown.
Senators also noted that the president's letter gave no indication as to whether a change of the administration's attitude toward Mexico was under consideration.

During the day the state department was advised by the American embassy at Mexico City that Carranza's reply to the American note renewing the request for the release of Consul Agent Jenkins was to be handed to the American charge today. The reply had not been received at the state department tonight.

Jenkins Probe Continues.
Meantime the investigation into the liberation of Jenkins on bail last week was continuing.

AUSTRALIAN AVIATOR WINS FIRST BIG PRIZE

PORT DURWIN, Australia, Dec. 10.—Capt. Ross Smith, the Australian aviator, arrived here today from England, thus winning the first prize of 10,000 pounds sterling offered for the first aviator to make the voyage. Capt. Ross left Hounslow aviation field near London at nine o'clock November 12 on his flight to Australia. On November 18 he reached Cairo, Egypt, and the next day he continued his flight, reaching Delhi, India, on November 23. From there he continued eastward until he reached Rangoon, turning southward at that city and making a number of stops along the Malay peninsula.

Port Durwin is close to the northern coast of Australia, being near the town of Palmerston.

CAN BE NO PEACE WITHOUT JUSTICE

SO DECLARES SECRETARY OF LABOR WILSON IN HIS ANNUAL REPORT MADE PUBLIC TODAY.

By the Associated Press
WASHINGTON, Dec. 9.—There can be no permanent industrial peace that is not based on industrial justice, Secretary Wilson declared today in his annual report. Reviewing the present disturbed industrial situation, the Secretary said the means had been found for regulating all the other relations of mankind and that human intelligence could find the method of adjusting the relationship between employer and employee with justice to both.

Declaring that just as international wrongs might reach a point making war a necessity, so industrial wrongs might accumulate until they provoke an industrial conflict, the secretary said the stability of industrial relations rested on mutual counsel.

"Just as the peace of nations is promoted by frank and friendly intercourse," he said, "so may the peace of industry be maintained by the same methods."

"But this intercourse can not come about unless there is first recognized the right of collective bargaining. The public interest demands that it be universally recognized for the primary interest of the public is in peace."

"The denial of organization is a denial of the only means of peaceable settlement that the wage earners have."

Calling attention to the present prominence of labor organizations of a revolutionary or lawless type the Secretary declared that the responsibility for them must fall upon the employer who opposes the organization of lawful trade unions. More and more do industrial disputes menace the public as well as employer and employee, the secretary said, adding that the right to strike should be a means of defense and not a weapon of offense.

"The right of any man to cease working for another for any reason that is sufficient to himself is the basic element of human liberty," he said. "The right of any person to refuse to operate his plant at any time he desires to do so is the exercise of a property right guaranteed by the constitution. It does not follow that because these rights exist it is necessary to exercise them. They must nevertheless be safeguarded."

Turning to the question of the high cost of living, the secretary said increased wages did not always bring the desired relief. Increased productivity, making more material available for wages and taking the means of increased compensation out of the profits of the employer was the only way in which the standard of living of the wage earner could be improved, he declared.

Reviewing the activities of the various bureaus of the department, the report said 254,273 aliens came to American shores during the fiscal year ending June 30, and that 245,647 of them were admitted and 8,626 excluded. The number admitted the year before was 211,853. Aliens departing during the last fiscal year numbered 216,231 as against 193,268 the year before. During the last 7 years the Bureau of Immigration estimated that 36 aliens left the country for every 100 admitted.

Aliens expelled under departmental process during the year numbered 3,068 compared with 1,569 in 1918. The total number of aliens deported, including those refused admission and 34 Chinese deported under the exclusion laws, was 11,728 as against 8,916 in 1918.

"The number of admissions to citizenship during the past year was larger than any preceding year, amounting to 217,358," the report said. "Leaving out of consideration the year 1918 this was a far greater number than was admitted in any two years during Federal supervision. Military statistics show 128,335 aliens who two years during Federal supervision. Military statistics show 128,335 aliens who acquired citizenship after they assumed the uniform of the United States."

The United States Employment (Continued on Page Four.)

Charity Begins at Home

(No. 1)

The benevolent work of the United Charities and the Red Cross of Ada has been correlated. Hereafter the executive committee of the Red Cross will be the executive committee of the United Charities. This important decision was reached at a conference of the two organizations yesterday.

Under the new procedure the executive committee of the Red Cross will have general supervision of benevolent work in Ada. Rev. S. B. Damron, who has done such a splendid work for charity under the direction of the United Charities, will continue in the work he has done with such eminent success. All bills under the new arrangement will be paid by Mrs. Orville Snead, secretary of the Red Cross, when properly approved.

Heretofore the budget of the United Charities has been \$200.00 a month, subscribed by the benevolent citizens of Ada. This is not enough. Few people realize the number of calls for assistance that come in from day to day. Only yesterday some indigent people, without money, wood, or gas, were taken to a hotel by Rev. Damron, and will be kept there until the blizzard has passed, or until other arrangements have been made. Two hundred dollars a month is in itself a nice sum of money. But the 10,000 people of Ada are not doing a great deal when they donate only \$200 a month. It is only two cents per capita—the price of a postage stamp.

One-Piece Frocks for Midwinter

The one-piece frock has its advantages for the busy women of today, and now divides honors with the tailored suits in the estimation of business or socially active people. Certain of these one-piece models were launched at the beginning of the season under a new and very adequate name, as "all-day dresses." This title describes them and points out their advantages for the woman whose affairs give her little time for making changes of her costume.

The one-piece dress is developed in all the fabrics that are used for suits, and in some that are not often used for suits. In the picture above, a frock of dark blue tricotine demonstrates how effectively this practical material has been worked up into a tailored dress that is charmingly graceful and chic. It is really a masterpiece of designing with a panel down the front from neck to hem, and a new management of the sides of the skirt where big patch pockets are set on. Below them the material in wide

plaits simulates a long tunic. The panel at the front avoids being too plain by means of a tuck set in on a line with the pockets, and above it are pendent silk ornaments. Below the tuck, round-covered buttons are set on with the beautiful accuracy that is the glory of tailored clothes. The waist is bloused back and front, affording a straight-line silhouette. Buttons and pendants embellish the panel in it, and buttons finish off the very long and shapely sleeves. This model has the unusual virtue of looking well on almost any figure.

Satin furnishes the best material for a frock like that at the right. It is simply designed, being a three-tier skirt and a smock with satin-covered buttons and sash by way of adornment.

STATES' BLUE SKY LAW TO BE TESTED

OKLAHOMA CITY, Dec. 9.—The test of the Simpson blue sky law, passed by the seventh legislature, under which the state issues commission was created and given jurisdiction over the scale of speculative securities in Oklahoma, will now find its way rapidly into the state supreme court. The attorney general's department filed a demurrer against the petition of the Mutual Investment company, an Oklahoma City concern, denying that the facts set out constitutes a cause of action and the ruling of the district court trial judge was to sustain the demurrer. The Mutual company is expected to immediately take the matter to the supreme court.

The Mutual company made a general denial of the jurisdiction of the state issues commission and attacked the constitutionality of the Simpson law by asserting that it creates a body with judicial and executive authority not invested by the state constitution.

WHO'S BEST HUBBY IN WORLD? LISTEN TO ELINOR GLYNN

LONDON, Dec. 9.—The American man is picked as the best husband in the world by Elinor Glynn, famous British novelist. In an article in the Ladies' Field today.

"Nearly all of those wonderful people who spring into social fame with the speed of comets as a result of their own force and efforts are Americans," says the writer.

"Especially the American women possess vitality and tenacity unknown to the women of any other country in the world. Unlike the English women, they do not have to worry over getting a husband, for there are plenty of men to go round in the United States. American women do not have to make an effort whatsoever to get a husband. All they have to do is exercise their choice. That is what makes them so successful when they come to Europe. They have the ingrained sense of superiority."

Bring in that picture and let me frame it for you.—C. A. Cummins

"MICKEY" TO BE IN ADA NEXT WEEK

One is put in the best of moods by Mack Sennett's "Mickey" which is to be shown at the Liberty Theatre Tuesday and Wednesday. And consequently we are introduced into a regular whirl of fine comedy of every kind known to a motion picture producer. Nothing that would bring a laugh has been forgotten. While the production was in rehearsals the incidents introduced were all rehearsed to the minutest detail, every bit was worked out until it was perfect, and then and only then did Mack Sennett allow it to go in the film. As a result "Mickey" has become known as the last word in comedies. And yet it is not all comedy, for a connecting link of the incidents was

needed, instead almost every kind of amusing incident available for Sennett and his assistant directors was used. Where a touch of drama was needed, where romance was essential, where a love scene was wanted and a love scene was added, in fact it contains every element that is found in a life story. The characters do not seem animated, but appear as life-like creations passing before the eye one after another. Theatre managers have been crying for the need of good films and Mack Sennett certainly must have heard the cry, for he has fulfilled it. They went on to say that their patrons deserved a square meal in the way of an up to the minute comedy, so the busiest brains of the Sennett studios got busy and not only produced a square meal but a banquet. Mabel Normand is an ideal choice as a heroine, she

has never looked so pretty as in the beautiful California settings, with her patched-up overalls or later as the queen of the ball. Her comedy is not overdone or underdone, and her naturalness throughout is one of her chief charms. It is with a tug at the heart that goodbye is said to her at the close of the last scene. An extraordinary well advanced cast is used in her support, including the famed animal comedians, Pepper and Teddy.

Two Congressmen Unseated Last Term of the Upper House

WASHINGTON, Dec. 9.—Congressman J. C. Herreld of Oklahoma occupies room 168-A, house office building. It was formerly occupied by Victor Berger, Milwaukee socialist, who was unseated.

Next door to him in room 169 is Congressman Peter Tague of Massachusetts, who was seated in the contest with Representative John J. (Honey Fitz) Fitzgerald, once mayor of Boston.

It is the first session of congress in many years in which two members have been unseated.

Tested 250,000 Miles Three-Point Cantilever Springs Greatest Improvement Since Pneumatic Tires

OVERLAND 4 has been put through the most thorough and severe test possible.

250,000 miles of mountain trails, desert sand, heat, cold, mud and dust, demonstrated the quality of every part of the car long before we began manufacturing.

This remarkable test showed conclusively that Three-Point Cantilever Springs, exclusive with Overland, are the greatest improvement in riding comfort since the introduction of pneumatic tires.

They protect the car from road shocks and prolong the life of every part.

They enable the wheels to hold better to the road. They give

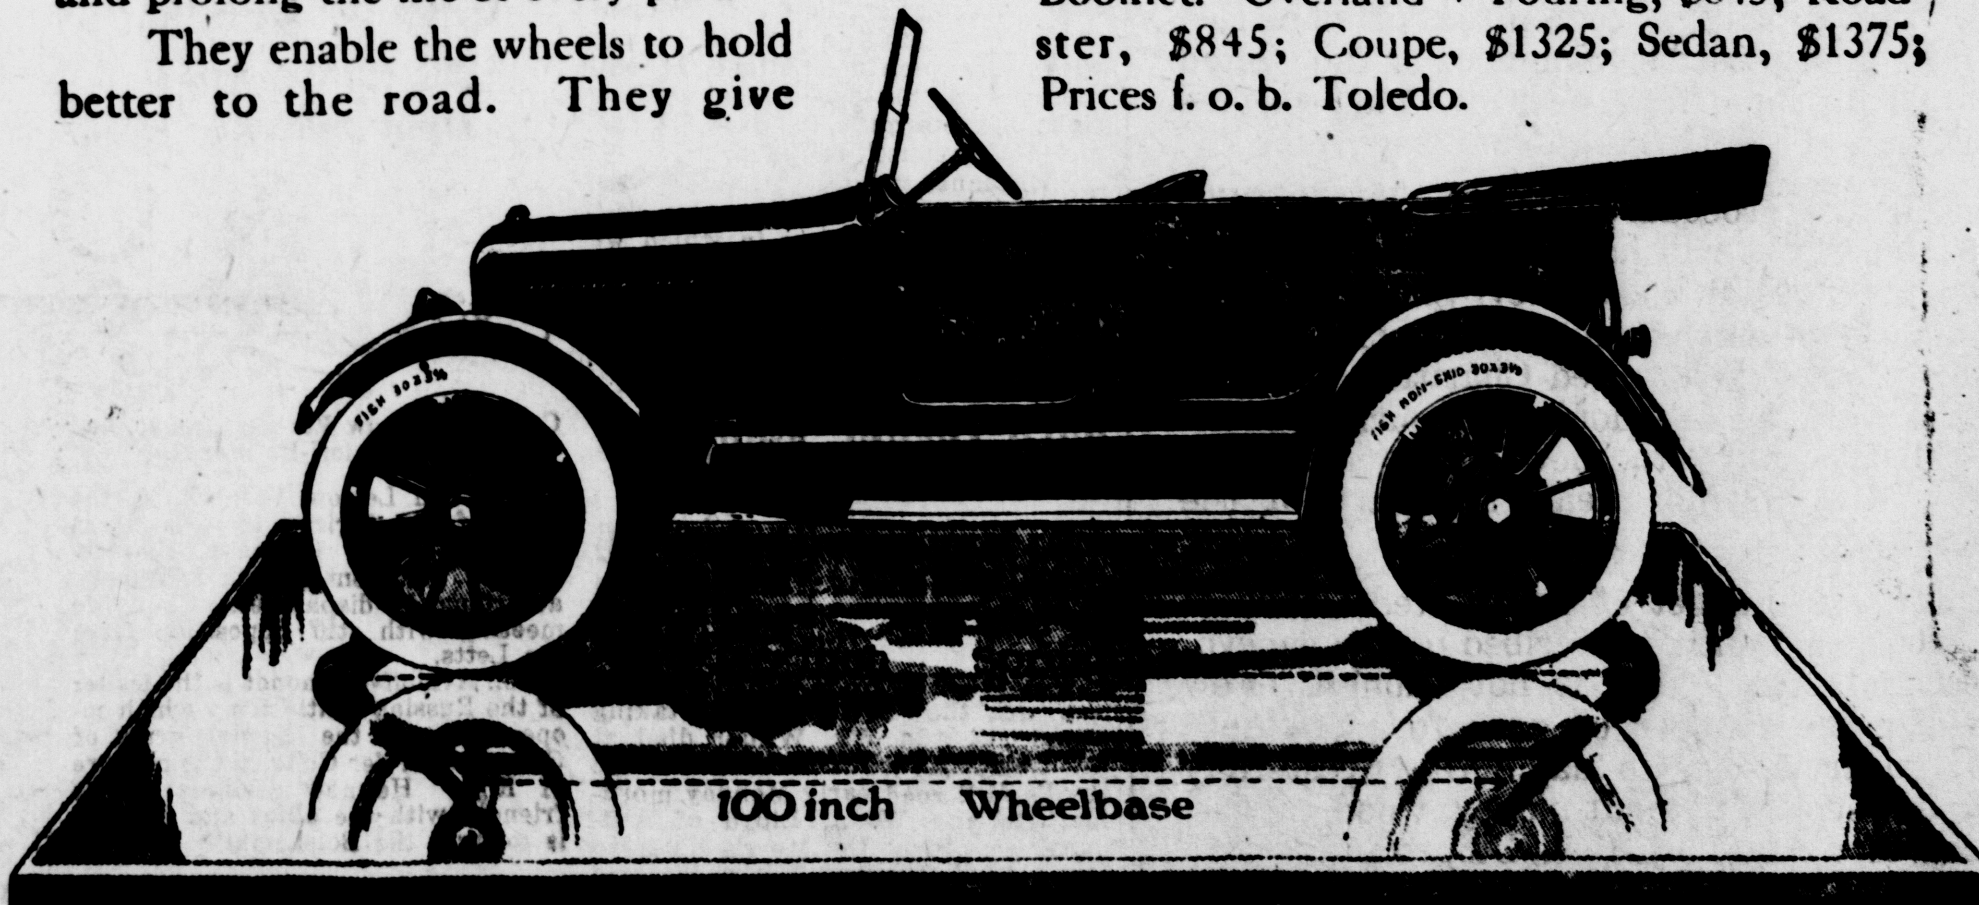

greater comfort under all road conditions.

They do away almost entirely with side sway and rebound which twist and rack the car.

Diagonal attachment of the Three-Point Springs at both ends of a 130-inch Spring-base gives the steadiness and smooth riding of the heavy car of long wheelbase.

Equipment is complete from Auto-Lite Starting and Lighting System to Marshall Divan Spring Upholstery.

Come in and see this car. Ask for Booklet. Overland 4 Touring, \$845; Roadster, \$845; Coupe, \$1325; Sedan, \$1375; Prices f. o. b. Toledo.

GLAD TO TESTIFY

Says Watoga Lady, "As To What Cardui Has Done For Me, So As To Help Others."

Watoga, W. Va.—Mrs. S. W. Gladwell, of this town, says: "When about 15 years of age, I suffered greatly. Sometimes would go a month or two, and I had terrible headache, backache, and bearing-down pains, and would just drag and had no appetite. Then it would last two weeks, and was so weakening, and my health was awful.

My mother bought me a bottle of Cardui, and I began to improve after taking the first bottle, so kept it up till I took three. I gained, and was well and strong, and I owe it all to Cardui.

I am married now and have 3 children. Have never had to have a doctor for female trouble, and just resort to Cardui if I need a tonic. I am glad to testify to what it has done for me, so as to help others."

If you are nervous or weak, have headaches, backaches, or any of the other ailments so common to women, why not give Cardui a trial? Recommended by many physicians. In use over 40 years. Begin taking Cardui today. It may be the very medicine you need.

YE TOWN GOSSIP

IT'S ONLY lately.

THAT I'VE been going home.

FEELING DEAD tired.

AND WORN out.

AND FOR a while.

I COULDN'T UNDERSTAND it.

AND IT was yesterday afternoon.

THAT THE answer came to me.

AND NOW I realize.

WHAT HAS been causing it.

FORREST WEST.

WILL COME into the office.

TO LEAVE an ad.

AND ON his way out.

HE LEAVES the door open.

AND I have to get up.

AND CLOSE it.

AND A little later.

JOHN SMITH comes in.

TO TELL me.

WHAT THE senate ought to do.

ABOUT THE peace treaty.

AND ON his way out.

HE'LL LEAVE the door open.

AND I have to get up.

AND CLOSE it.

AND IN a few minutes.

IN COMES J. W. Davis.

TO TELL me a new one.

THAT HE'S just heard.

AND HE'LL go out.

AND LEAVE the door open.

AND I have to get up.

AND CLOSE it.

AND DURING the course.

OF THE day.

ED GWIN.

AND MIKE WILSON.

AND A dozen more.

WILL COME into the office.

AND ON their way out.

THEY'LL LEAVE the door open.

AND I have to get up.

AND CLOSE it.

AND I don't know very much.

ABOUT SUCH things.

BUT I'M willing to bet.

THAT A good many folks.

ARE GOING to spend.

A WHOLE lot of their time.

IN THE hereafter.

JUST CLOSING doors.

AND IT'S only fair.

THAT THEY should.

I THANK you.

MURRAY WILL GO TO SOUTH AMERICA

QUITS OKLAHOMA POLITICS TO PUT ON COLONIZATION PROJECT IN SOUTH AMERICAN REPUBLIC.

SHAWNEE, Dec. 9.—"Bill" Murray, former congressman and a recent candidate for governor of the state of Oklahoma, will not make the race for congress in the fourth district against Tom McKeown. It became known here when a written interview was received from him. It had been generally conceded here that Murray would be a candidate for the office and that his candidacy would be a hard one. Instead, Murray is forming a colony and will leave soon for South America where he intends to build up a "new democracy" from the ideals of the democracy which he says is waning in the United States.

After months of careful preparation and study, Murray made a trip to South America last summer, returning this fall filled to the brim with enthusiasm over the country. He visited Bolivia, armed with all the credentials man could desire, visited the president and when he was possessed of what may become the most valuable land concession ever made to man, at least so, in this modern time when land has become scarcer and of greater value than in a day a few decades back.

Big Concession Made. Murray has been granted a concession of 650,000 acres of select land in the finest agricultural section of eastern Bolivia, conditioned on his bringing 250 colonists, 168 of whom shall have families, for whom 250 houses shall be erected and each connected by telephone with the military post. The government will establish a military post near the colony, make the annual appropriation for maintaining of schools and exempt the colonists

from export and import duties for ten years and in addition to the above will grant riparian rights on all the streams, something which is rarely done. Murray is now engaged in the enlisting of the first 125 families forty already having signed up to go. Each family must have as much as \$1,700 in money and should have \$200 extra for each child. Supplies in that country, as well as labor, are said to be much cheaper than they are here and the cost of building a home and making a farm producible is much less. Each family making the trip will be given eighty acres of land outright if they will agree to erect a house on it to cost as much as \$250. A section or more additional land can be bought at varying prices. Productive crops are said to be available the first year.

Raisin Whisky Is a Deadly Poison, Says Coroner in Detroit

DETROIT, Dec. 9.—County Coroner J. W. Rothacher has issued a warning against "bootleg" raisin whisky and other alcoholic substi-

tutes. The coroner characterized raisin whisky as "a brother to the deadly wood alcohol," and he listed either whisky, juniper gin, Jamaica ginger, hair tonics and extracts of various kinds now being drunk as substitutes for whisky, under the same head. Statistics in the coroner's office show that 16 deaths have resulted since January 1 from the drinking of these poisonous concoctions and there have been many cases of paralysis, insanity and blindness resulting from the same cause.

Hog, Potato and Alfalfa Farm

for sale

Forty acres of land, known as the Sam Mayfield place, on Ada-Stonewall highway, six miles out of Ada. I sold this place several weeks ago to a party, and as he has decided not to move on it, has authorized me to sell it again for him. This is one of the best 40 acres of land in Pontotoc county. Will raise sweet potatoes, alfalfa or anything else that a man wants to raise on it; has running water on it from a spring that never fails; the improvements are worth the price asked for the land. Place must be sold at once.

See J. A. Cowling or J. F. McCoy, Stonewall, Okla.

No. 2—100 acres of level valley land; 95 acres in cultivation, 5 acres in pasture; on Ada-Stonewall highway, only four miles out of Stonewall. This is one of the best and most desirable located farms in Pontotoc county; just as level as a floor; has no washes nor will it ever have any; can't be surpassed for cotton, corn and small grain; to see is to buy; can be handled on easy terms; possession January 1, 1920. Price \$80 acre.

STATE JUGGLES A \$20,000.00 ACRE OF LAND AT CAPITAL

OKLAHOMA CITY, Dec. 9.—Oklahoma's \$20,000 acre of land, acquired a little more than a year ago, is moving again. The state board of public affairs in the Williams administration acquired a triangular acre south of Twenty-second street, in front of the south entrance to the capitol. This was graded down and hauled onto the capitol grounds, filling the statehouse site to the level of the steps of the building's main entrance. Since the adoption of plans drawn by George W. Kessler, landscape architect, it has been necessary to remove this earth. A grading-loader, operated by the power of 14 mules and four men, with 10 dump wagons, is engaged in the work. The earth was moved in by convict labor.

During the recent unfavorable weather work on the capitol grounds was suspended but unless weather again interferes the grading will be hurried to completion.

Greek residents of the island of Patmos live mostly by fishing for sponges.

CHECK THAT COLD RIGHT AWAY

Dr. King's New Discovery has relieved colds and coughs for fifty years

It was an unusually high quality cold, cough, gripe, and croup remedy when introduced half a century ago. Not once in all the years since then has the quality been allowed to deteriorate. Its effectiveness in combating colds and coughs has been proved thousands of times in thousands of families. Taken by grownups and given to the little ones for the safe, sure treatment of colds and gripe, coughs and croup, it leaves absolutely no disagreeable after-effects. Get a bottle at your druggist's today. 60c. and \$1.20.

Bowels Act Human—function gently but firmly without the violence of purgatives—when you treat them with Dr. King's New Life Pills. A smooth-acting laxative that gets right down to business and gratifying results. All druggists—25c. a bottle.

Choosing Your Bank

—is a matter of sober thought and deliberation.

The Oklahoma State Bank, operating under an Oklahoma charter and meeting in a most capable manner the exact requirements of every depositor, cordially invites your account.

Our strength, responsibility and efficiency have won for us the patronage of hosts of discriminating people.

If YOU would choose wisely—choose this institution for your financial headquarters.

Oklahoma State Bank

United States Railroad Administration

Director General of Railroads

Missouri, Kansan & Texas Railroad

Reduction of Passenger Train Service to Conserve Supply of Coal

Effective 12:01 A. M., December 8th, passenger train service will be curtailed and only necessary trains provided.

The following passenger trains serving this territory will be temporarily discontinued:

Trains Nos. 23 and 24, between Parsons and Oklahoma City.

Trains Nos. 18-23 and 24-23, between Muskogee and Osage.

Trains Nos. 15 and 16, between Oklahoma City and Atoka.

The schedules of the remaining trains will be changed to some extent.

AVOID UNNECESSARY TRAVEL

Those who must travel, and particularly those who have made advance purchases of tickets or sleeping car space for any day in December, should apply to local ticket agents and ascertain if trains or cars they propose using have been discontinued or their time changed.

C. N. WHITEHEAD,
Federal Manager.

The Christmas Gift Supreme

What could be a better Christmas gift for your family than to have the phonograph that is able to give you the vocal and instrumental selections of the great artists just as they actually sing and play to large American audiences.

Please understand, no talking machine and no other phonograph proves in public test that it is indistinguishable from the living artist.

This statement is based on a foundation of facts. Three thousand representative music critics have heard the Edison comparison tests and have written that they could not detect any difference between the living artist and the New Edison's RE-CREATION of their art. What proof could be more convincing in helping you to select your Christmas phonograph.

The recent rumpus kicked up by Carranza is an unspeakable bore to the public, but it will be a God-send to our vociferous senate. That senescent body had just about run out of ammunition, and the Mexican embroglio will be nuts to the gab fest. Having talked about every angle of the peace treaty that exists and a thousand that never did exist, the most potent, grave and reverend senators can now devote themselves to the troubles beyond the Grand River of the North. Sherman will no doubt discover in the Jenkins episode the unmistakable evidence of a Catholic plot to rule the world. Reed will recognize in the Jenkins perjury charge an effort to establish negro domination in the western hemisphere. Hiram of California will consider the Carranza recalcitrancy as the twin of Shantung and warn the nation against the insidious efforts of the Oriental to set up a Hop-Hop government at Washington. Oh, but the Mexican breeze will be nuts to the senate. Nothing like it in all history since the stupid sailor of Ulysses opened the bags of wind.

This is the open season or departmental reports and every mail brings in some value whose size is only exceeded by its uselessness. Reports covering every subject from the cultivation of Indian turnips to the specific gravity of doodle bugs are a weariness to the flesh. These reports may have a value to those who want them, but they are an abomination to the thousands of inoffensive citizens who do not want them yet cannot avoid receiving them. Not the least of the reasons why they are undesirable is that they waste tons of good paper at a time when the printing industry is being throttled by a paper shortage. The greatest spendthrift of both money and material is our dear old Uncle Sam, and paper waste is the chief sport and pastime of many of his numerous progeny. It is nothing unusual for a department to waste thousands of dollars in publishing statements showing how the department saved a few gallons of crude oil or a few pounds of turnip seed. But old man people pays the bills, and the department should worry.

Now congress is to investigate negro disfranchisement in the South with a view of reducing the number of southern congressmen. So be it. We can well spare a few congressmen. But congress might possibly find something interesting if it would only do a little probing in the grand old state of Michigan.

The Durant News is surprised that Senator Capper should continue to peddle the lie that Great Britain will have six votes in the League of Nations. It doesn't take much to surprise some papers.

The bad roads of Craig county saved a Vinita man's car. The roads were so rotten that the thief couldn't get to the Kansas line. We always knew that the people who voted against good roads last May had some reason for their action.

If the embargo on cotton and cotton seed goes on and the price breaks and the seed rots, the cotton producer who works fourteen hours a day will get a beautiful insight into this six-hour, five-days-a-week program.

One walk-out that has our heartiest best wishes occurred in Brooklyn last week when nine voters in one family walked out of the republican party because Lodge et al had sand-bagged the league of nations.

It strikes us that Oklahoma City democrats have enough to worry about without starting a daily newspaper. Party enthusiasm makes a mighty weak pay roll.

Press reports of good roads agitation over the country again remind us that Oklahoma is the only state in the union that has exactly the kind of roads the people want.

We cannot deny that slugging is sometimes practiced in a football game, but what we want to know is how anyone can tell slugging from legitimate playing.

Congressman Harreld has developed tonsillitis since reaching Washington, which is about as much as most congressmen ever accomplish.

The defeat of Henry Ford for the senate up in Michigan was an interesting story, but not half so interesting as the story of how it was done.

PONCA CITY PUTS THE BOY SCOUT WORK OVER

PONCA CITY, Okla., Dec. 10.—Boy Scout work on an extensive scale is being inaugurated at Ponca City, at the present. A salaried man to organize and direct the work will be employed and a boy survey of the city will be made, to determine what other work may be done for boydom. The campaign was started by the Chamber of Commerce and as a result a Scout Council has been named for a year to have charge of all boy work. For the first time, too women have been named on this Scout Council perhaps the first time in the Scout world. At Ponca City, however, it is held that mothers should be on the Council, for a mother's work is that of looking after boys, her's and others. Two women were named: Mrs. Francis Smith-Catron, director of music in the public schools, and Mrs. James J. McGraw, wife of the Republican National committeeman. The other three Council members are W. H. England, an attorney; R. P. Baughman, wholesale lumberman, and J. N. Hamilton, city superintendent of schools. All business interests in the city are helping finance the work.

Confederate Memorial Service.
The Memorial service which was to be held last Sunday in memory of Dr. Daniel Morris Hailey, who was the Commander of the U. C. V. of Oklahoma, and who died recently, will be held next Sunday at the First Baptist church, at 11 o'clock. This service was supposed to have been held last Sunday afternoon at 2:30 but on account of a failure to advertise same, the crowd was small, and it was unanimously decided to have it next Sunday at eleven o'clock, provided Rev. C. C. Morris would agree to have it at that hour. Brother Morris readily agreed, and so the service will be held at the above time at the First Baptist church, and Rev. C. C. Morris will preach the sermon. It is earnestly hoped that there will be a large number of confederate veterans present, and that there may be a large number of the local citizenship present to do honor to one of Oklahoma's noblest sons.

CAN BE NO PEACE WITHOUT JUSTICE

(Continued from Page One.)

Service at the end of the war had 350 offices with a personnel of 1,700 and an administrative force at Washington of 300. During the eleven war months of 1918 the service placed 2,698,887 persons in employment out of a registration of 3,675,858.

Persons directly affected by labor disputes brought to the attention of the department during the year numbered 1,011,968, while the number indirectly affected was 1,336,072. During the year the department assigned commissioners of conciliation to 1,780 cases, in-

cluding 587 strikes, 1,113 disputes and threatened strikes, 63 lockouts and 17 walkouts. Of these 1,229 were adjusted, exclusive of 219 referred to the National War Labor Board. The commissioners failed to make settlements in 111 cases.

Strong recommendations for the reviving and continuing of the Working Conditions Service, which was instituted during the war to investigate working conditions and to recommend standards for their improvement, were made by the secretary.

He also urged legislation for the continuation of the U. S. Training Service. "It is believed," he said, "that increased skill on the part of the workers, and its consequent stimulus towards greater production, is even more important in peace than in war."

Baptist Prayer Meeting.
Tonight at 7 o'clock, the regular mid-week prayer meeting will be

held at the First Baptist church. The ordinance of baptism will be administered at the conclusion of the service. Anyone desiring baptism, will come prepared to receive it. We are exceedingly anxious to have a good attendance at our prayer meeting services, and a cordial invitation is extended all to attend.—C. C. Morris, Pastor.

Fire Wood Available at Tyrola.
R. L. Ramsey, who lives on Route 3 out of Ada, informs the local council of defense that he has a large supply of wood that he will

furnish prospective buyers at \$3.00 a cord loaded on the cars at Tyrola. He says that he has eighty acres of woodland near Tyrola that he is having cleared at this time, and that for \$3.00 a cord he will load this wood on the cars. If there is anyone in this section interested in Mr. Ramsey's proposition, he can communicate with him.

Surprise Store

HORSE, DOG AND POLICEMAN.

"The big horse," said Daddy, "upon which the big policeman sat each day as he guided the motors and the people walking, and told them which way to go, had a chat with the policeman's dog."

"By the Fire."

"Now the policeman's dog did not help the policeman as he told the people in the city how they must go across the street and when they must go. The dog, though, played around the policeman's home and at night the dog would always have the policeman's warm slippers by the fire and his old smoking jacket on the chair, and his pipe and tobacco on a little table near the chair. He never failed to look after these things."

"So while the horse helped the policeman with his work the little dog helped the policeman to rest and to be comfortable after his hard day's work. "When the little dog heard the policeman as he would come home he would shake all over himself with joy. He would be so happy that his little body would wiggle and tremble and shake and move and his little tail would wag so hard that sometimes the policeman would say."

"You're the best tall waggoner I've ever seen."

"Sometimes the policeman would take the little dog with him as he went to put his horse away for the night."

"And it was one of these times when the policeman was talking to his friends that the dog and the horse had this chat."

"Isn't the master fine?" asked the little dog. "He gives me such good things to eat."

"He gives me good things too," said the horse. "But, oh, how many lives he saves. He sees that people don't rush under the motor cars without looking, and that motor cars don't go rushing over the people."

"He is always calm and quiet and he also always makes people feel calm and cool and less frightened."

"But last night, doggie, I had a dream, really quite a bad dream. I had indigestion I do believe but I feel quite all right again now. I thank you."

"For the dog had opened his mouth ready to ask that question as the horse knew."

"I dreamed," said the horse, "of traffic. I dreamed of motors and horses and people all going this way and that and all getting hurt and no one doing anything right. And my dear master wasn't obeyed and he kept shouting."

"I don't want to be obeyed for my own sake. I only want to be obeyed for your sake."

"I want to be obeyed so I can make the motors keep in order so they won't hurt the people, and I want the people to obey me so it will give the motors a chance to go about their business."

"That's the only reason I want to be obeyed—so I can help others and so you will be safe, quite safe."

"The people driving motor cars got angry because they wanted to go right and the people walking got mad at those driving motor cars and there was great confusion."

"But at last morning came and I woke up."

"It was the first time I dreamed at night of the traffic and the work I do with the big city policeman, even though I do it every day."

"But, of course, as I tell you, I wasn't feeling well and that is why I had this dream, and now that I feel better I know I won't have another like it."

"Still it just made me think once more how fine the master is, for he doesn't care for people to obey him because he is big and strong, but because he is always looking after them and their safety."

"That's the sort of master we have, the strong, fine master, who never gets frightened and who helps people in the big crowded city."

"Yes, that is the sort of a master we have," said the little dog.

"But just at that moment the policeman came along, speaking to another policeman and he said, 'My horse is so brave and so splendid. He fears nothing and always does what I ask of him, and my dear little dog is the greatest comfort and joy in the world. So, as you can see, they liked each other, the dog and the horse and the policeman.'"

Mrs. Verne Clopton and little daughter, Rose Mary, of Wichita Falls, Tex., arrived Tuesday to visit Mrs. Clopton's parents, Mr. and Mrs. W. J. Allen. They will extend their visit through the holiday season and will be joined here by Mr. Clopton at Christmas.

Daniel Heard, small son of N. T. Heard, who was injured by a 22 target shell exploding Saturday, is reported to be out of danger now and very nearly recovered from his accident. A piece of the shell entered his mouth lodging in his cheek and had to be removed from the inside.

Be Strong

THE strong and vigorous man or woman is envied by less fortunate humanity afflicted with aches, pains, infirmities and ailments. The sufferer says to himself, "If I could only be well, how happy I would be," for health is more essential to the joy of living than is wealth.

The kidneys almost literally wash the blood and keep it clean and free from impurities. When the kidneys are out of order, they fail to filter out this waste and poisonous matter. It remains in the system to cause backache, rheumatic pains, sore muscles and stiff joints.

help the system eliminate this poisonous waste. They soothe, strengthen and heal sore, weak and diseased kidneys and bladder. When the kidneys are working properly, appetite returns, refreshing sleep is possible, and health and strength come again.

C. W. Smith, 1205 No. 4th St., Selma, Kas., writes: "I am very much pleased with Foley Kidney Pills. I am working in a coal yard and have been very much troubled with my back. I have taken several doses of Foley Kidney Pills and they have already helped me."

SOLD EVERYWHERE

Mrs. Anna Ingram returned last night from a visit to Fort Worth.

A. R. Waddell student of E. C. S. N. returned this morning from Roff where he had gone to drive over his car.

Mrs. James Butler who has been visiting Mrs. T. J. Eads returned yesterday to her home in Woodville.

Jack Covington of Honey Grove, Tex., left yesterday after visiting friends in the city for the past few days.

MINE WORKERS' HEAD EXPECTS SETTLEMENT

By the Associated Press

INDIANAPOLIS, Dec. 10.—With President Wilson's proposal facing the strikers still in session the conference of miners recessed for lunch at 12:05 o'clock until 1:30 P. M. Acting President John L. Lewis said he "expected the miners to finish today." Others said he would make no comment.

Acting President Lewis appeared confident during the noon recess of winning the acceptance of President Wilson's plan when it comes to a final vote.

Frank A. Farrington, head of the Illinois miners, who headed groups said to be strong in opposition to the President's proposal, made a lengthy speech just before adjournment of the committee. It could not be learned whether he would continue in opposition, or as reported a little earlier, set forth the attitude of the Illinois delegation as having decided to support the proposal.

CONFERENCE OF LIBERALS HELD

DISSOLUTION OF MONOPOLIES IS ONLY SOLUTION TO ECONOMIC PROBLEM SAY THE LEADERS.

By the Associated Press

ST. LOUIS, Mo., Dec. 10.—Dissolution of monopolies is the only solution of the economic and industrial problems facing the nation according to the report of the program committee submitted today to the national conference of Liberals in session here. The committee said its report was designated to eradicate "poverty and squalidness."

The two principal political parties are bitterly arraigned in the report and while it was said the conference was not called to form a new political party, the report declares that the growing control of basic resources and industries by trusts has created the conviction that no relief can be secured, "except by the formation of a new party."

The report especially assails the alleged trusts controlling steel, beef, oil and coal and asserts that by monopolizing patents and railroads these organizations have precluded all others from competing with them.

Under public ownership of railroads this particular monopoly would be broken and freight cars would be distributed equally among all industries the report says, and to break up the alleged patent monopoly it was suggested that all patents be open to use by any body by the payment of a royalty to be fixed by the government.

Of Course Paul Wasn't Mad.

Paul and Billy live in the country. There are two girls in the family also. Their aunts in town are fond of sending them things. One package contained nothing for Paul or Billy. Paul wrote to his grandmother: "What's the matter with my aunts? They sent a package out here and there wasn't a thing for Billy or me in it, and Billy's pretty mad about it."

THE WAY IT WORKS.

To provide against just such an exigency as exists now on account of poor service on the part of the gas company, the cotton oil mill here some time ago put in a two-inch gas line to one of the mains just outside of the city limits.

The only additional line supplying gas to the city is the three-inch line used by the gas company. The people at the oil mill allege that the two-inch main which they use has been used by the company to help supply gas to the city, and that when it blew up a few days ago the gas company refused to fix it and refused to allow the oil mill to do so.

As a consequence the shortage of gas resulted and the oil mill has been shut down to conserve gas for the whole people.

While the oil mill's fight is not the fight of the Ada News, it is everybody's fight to see that Ada's industries are kept running if it is at all possible.

In lieu of this condition we would suggest that the industries of the city which are suffering for the lack of gas, when there is plenty of gas, request the corporation commission to take a hand in the matter and see if relief cannot be secured.

Letters To Santa Claus

The First One Received.

Ada, Okla., Oct. 28.
Dear Santa Claus:
I want a little doll and a little set of dishes and a little bed, too, and a play dresser and a little play chair, and a little story book, and a music roll and a little set of doll's clothes.

Alpha Lorene Emory.

Wants a Whole Train.

Ada, Okla., Dec. 7, 1919.
Dear Santa Claus:
I want you to please bring me a train and track, and a pair of leather gloves and all the firecrackers and torpedoes that you can bring me. From your little friend,
621 W. 8th St. Bernard Herrin.

Wants a Lot of Things.

Ada, Okla., Dec. 7, 1919.
Dear Santa Claus:
I will write you a few lines to let you know what I want. I want a little car and an air gun and some candy and oranges and apples and a whole lot of more things.
Yours truly,
Ralph Cary.

Will Be a Good Boy.

Ada, Okla., Dec. 8, 1919.
Mr. Santa Claus,
Ada, Okla.
Dear Santa Claus:
I shall try and be a real good boy if you will bring me a "Genuine Irish Mail" so I may coast down the side walk, if you will be so kind I sure will let other boys ride with me.
Please, Santa Claus, I would like to have a nice story book also.
Your little friend,
Leon Bradley.

Wants a Cornet.

Dec. 9-19.
Dear Santa Claus:
Please bring me a cornet and the book "Billy Whisker's Kids," and if I am a good boy you might bring me more, and oblige,
Your little boy,
James Emory,
116 East 15th St.,
Ada, Okla.

Wants Doll and Sweater.

Dear Santa Claus:
I want a lot of candy and oranges and bananas and pecans and peanuts. A little doll in blue outfit at Coffman, Bobbitt & Sparks, and a pair of shoes and a knit sweater. "Tub."

Corporal Fisher of the local recruiting station returned yesterday from Oklahoma City on the new motor cycle secured for local use. The Corporal reports the roads rather rough yesterday after the hard freeze.

Ada Playhouses

LIBERTY.

Again tonight "The Heart Breaking Baby Dolls" will be seen at Liberty. Is is such a show as your wife will appreciate as well as yourself. In fact, if you enjoy a real high class vaudeville you should take the whole family to the Liberty while this popular company is here. The program tonight will be especially attractive.

AMERICAN.

At the American tonight you will see the big serial, William Duncan in "Smashing Barriers." It's a smashing good picture and you shouldn't fail to see it. Also Pathe News weekly giving you the important news of the world in moving pictures.

Let a Want Ad get it for you.

There is a certain dignity in many of the proverbs native to the Philippine islands. "A hero is braver for his wounds," the Filipinos say. "The quality of gold is known by rubbing it against a stone." "He who despises counsel is on the way to misfortune." "Whoever believes everything that is said has no mind of his own." In some there is gentle humor. "A sleeping shrimp is carried away by the current." "A fish is caught by the mouth." "If you sleep, brother, the crocodile will eat you up."

In the middle ages fossils of obsolete animals were regarded as discarded moulds of the Creator.

The time taken for an explosion of a dynamite cartridge is about one twenty-fourth of a second.

A whitefish lays upward of 50,000 eggs.

CANADA'S PUBLIC MARKETS CO. INC.

Don Secours Market in Montreal

Market in Quebec

Champlain Market, Quebec

The French people have been noted for their thrift throughout their history and when, back in the seventeenth and eighteenth centuries, the banner of the Fleur de Lys was carried into Canada, the French brought with them the institution of the public market place, which survives today in the French speaking Canada, and, to a less degree, has spread across the whole union.

The advantage of the public market is self-evident. The middle-man and the big profit exacted by him is eliminated and the cash and carry plan cuts out expensive delivery and credit systems. A material reduction in price is thus brought about.

There are several markets in Montreal, but perhaps the most famous is the Bonsecours Market, named after the church of Notre Dame de Bonsecours, and well known it is indeed, for it has been of good help to the thrifty housewife these many score of years.

In Quebec the Champlain Market, at the foot of Chateau Frontenac in the lower town, and the St. John Street Market, are the largest and serve a double purpose of being once public necessities and most picturesque spectacles.

In winter it is a remarkable sight to see frozen milk dumped with an ax and served to the customer in a bowl, the daily avails of frozen milk. "Tom vcod" are a novel sight.

The progressive V. J. Las also adopted the public market. When he has one in the city of Calgary has recently built a great market place to reduce the cost of living by cutting out the middle man. The plan has been successful wherever tried and experts advocate the public market as the means of solving the high cost of living problem in the United States. Certainly it has done much good across our northern border.

NEW AUTOMOBILE AGENCY NOW OPERATING IN CITY

The Emanuel-Overland Agency, recently opened in Ada, is now doing business, having several cars in stock and more rolling. The Overland car is making an enviable record, the following story from the Los Angeles Times telling a wonderful tale of Overland accomplishment:

Nine hours and twenty-five minutes actual running time for the round trip from Fresno to the Yosemite floor in a stock Overland four touring car carrying four passengers and without special mechanical equipment of any kind, is a record that will set new standards for mountain performance that should stand for a long time to come.

The news of the newest Overland California achievement was made known to Mr. Willys in the following telegram:

"John N. Willys, president, Willys-Overland, Inc., Toledo, O. Overland four carrying four passengers left Fresno ten minutes of six this morning. Made Yosemite Valley and return by daylight without a mechanical adjustment of any kind. Hood raised only for gasoline and oil. Two tire changes. Actual running time nine hours twenty-five minutes. Total mileage 204 miles. One hundred and fifty miles of this twisting mountain roads. Winter driving conditions. Mud and snow in mountains. This smashes all records known here. Fresno branch makes open challenge on this run, regardless of price of car, make or horsepower, without qualifications of any kind. No car of this model has been over this road before. No preliminary trials or preparation and know that with today's experience could cut to nine hours flat. Stop. One way time of seven hours heretofore regarded as fast."

"D. G. VALENTINE, A. R. FERNALD."

DETAILS.

Details of the trip were recounted yesterday by Jack Holmes of Fresno, an ardent Yosemite fan and winner of one of the 1918 Camp Curry cups.

"I have driven all sorts of cars, big and little, in the mountains," said Holmes, "and was curious to see just what sort of performance the new Overland would make because it seemed to those of us who have specialized in mountain driving, that some unusual time record could be set up through the unusual combination of short wheel base and perfect spring resiliency that are really the two important mountain driving functions, and which have not been heretofore present in combination in any car up to the advent of Overland four."

"The trip was not a difficult one, although we went out prepared for most any road condition that might turn up incident to the first mountain snows. Our precautionary equipment included block and tackle, shovels and tire chains, all of which proved unnecessary, although the last thirty-five miles of the journey was made in snow and with the roads full of chuckholes and wallows. Eight-inch water breaks have been placed over much of the road in preparation for winter, and these are, to say the least, not conducive to fast driving with ordinary springs beneath you."

"We left Fresno at 5:50 A. M., and pulled in at Coarse Gold at 7:40, arriving on the Yosemite floor at 11:15, where we were checked in by Ranger Adair."

For your dress use covered buttons, and finish your linen with hem stitching—Mrs. Cassidy's Button and Hemstitching Shop. 11-25-1mo

Garnets larger than a hazelnut almost invariably contain flaws.

FIRE BOYS REWARDED FOR SAVING HOUSE

Somer Jones, the city fire chief, received a substantial check this morning from P. S. Case as an appreciation of the services rendered by the fire department yesterday when the Case residence on South Broadway caught fire.

The fire is said to have been caused by a short electric current. The fire boys made a record run and extinguished the flames before extensive damage had been done. The loss is estimated at about \$150.

The local fire department deserves a great deal of praise from the public for its vigilance at all times, and it is possible that the public fails to think of the service rendered unless a fire calls attention to what the boys are doing. They are on the job at all hours and in all kinds of weather and deserve the commendation of all good citizens.

Thriving Table Leg.

Among the furnishings of a South Carolina home, says Popular Mechanics magazine, is a small willow table that is the talk of the neighborhood. Although it has been kept indoors and far from any moisture ever since it was built and properly painted, several months ago, one leg is now the proud parent of four leafy sprouts, which thrive in their strange surroundings.

Marriage License.

W. R. Harris, 37, Ada; Bula Phillips, 25, Ada.

There is an entire absence of woods and forests in the Nile valley.

I was there to make a sketch of children's hour like a feast. For the her Luncheon was just over, and tiny toddlers there is a varied she was talking to a little knot of menu, sometimes Uneeda Biscuits women. The first words I heard, and milk, sometimes Graham Crackers I said quietly into a near. "National Biscuit," recalling pleasant. This is changed on special antly my own tasty Uneeda Lunch occasions to Old Time Sugar Cookies. I liked her, and settled comes or Fig Newtons and, rarest of fortably as when we had cream and Nabisco, and those and ears busy.

"Between the dark and daylight," were our party days.

she was quoting, "there's always a bit of pause when all the day's work is done. It started us happily, seems waiting and then the day's work is done. It made us sure they children. Since then, millions have come to know it as the name of the always perfect soda cracker—the everyday food."

The name Uneeda Biscuit first designated the better soda cracker.

Since then, millions have come to know it as the name of the always perfect soda cracker—the everyday food.

THE HOLSTEIN WAY TO A BETTER DAY

The above is a drawing of

RAG APPLE THE GREAT

who sold for \$125,000.

Just recently 67 of his brothers and sisters brought a quarter of a million dollars. Four of them sold for over \$20,000; seven sold for over \$10,000 each and twenty-four for \$1,500 each.

In the past four years members of Rag Apple's family sold for over \$1,000,000.

We also learn from reports of cattle experts that there is a great shortage of pure-bred Holsteins and this opens up a new avenue of money making in this country.

Wouldn't you like to take advantage of the possibilities in Holsteins? We are here to help you.

Let's talk it over.

**A YULETIDE SUGGESTION**

Give some one who is close to you a pair of Kryptok Glasses for Christmas.

KRYPTOK are for people who need double-vision glasses. They end the bother and fuss of using two pairs, and, unlike old-style bifocals, are free from lines and seams.

KRYPTOK GLASSES THE INVISIBLE BIFOCALS

are the only real improvement over old-fashioned bifocals.

It is easy to give them for Christmas. Ask us about our Christmas Gift Certificate, which simplifies the giving of a genuinely useful present.

COON JEWELRY STORE**Frozen Roads Help Visitation of Rural Schools**

County Superintendent A. Floyd and State High School Inspector Howell went to Stonewall yesterday afternoon to visit the high school at that place. They are spending today visiting some of the rural schools that do high school work.

Formerly the high school inspection work was under the supervision of the state university and the principal part of the inspection work was done in the city and town high schools that have the full four years course. The last legislature placed this work under the direction of the state superintendent's office, and more attention is now being paid to the weaker schools that have only one or two years of high school work. It is believed that the change will prove very beneficial to the schools that need this inspection the most.

During the recent continued wet weather it was almost impossible for Mr. Floyd to get over the roads of the county to visit the rural schools, but now that the roads are frozen it is possible to get a car over them and he is taking full advantage of the freeze.

LADIES' SKIRTS WILL CONTINUE TO GO UP IN 1920

CLEVELAND, Dec. 9.—The style committee of the committee of the National Cloak, Suit and Skirt Manufacturers' association recommended skirts from three to four inches shorter than at present for the 1920 season, in its report today at the closing session of the annual convention here.

The committee decreed that skirts next season will be from seven to nine inches from the floor for women and about 10 inches for misses, as compared with four to six inches for women and six to eight inches for misses at present.

Skirts, the style makers say, will be "frankly short," but without abbreviation—one thing to be avoided if one wishes to be stylish, is the extreme. Tunic and plait skirts will be worn.

Fullness at the hips will be a feature of many of the smart spring suits.

Sleeves will fit snugly and close to the tailored suits. Sport suits for spring and summer wear are recommended. Novel belts of leather and metal, and a new type of collar—long, slender and rolling—will be a detail of the suits. The Lord Byron and Peter Pan designs will be popular.

The newest wrap for women is not unlike the old Roman toga, a graceful, enveloping garment that can be tucked up and pulled to gether.

"Prices of coats, suits and skirts will stay up," said Michael Prints of Cleveland, chairman of the style committee.

BAD BREATH

Dr. Edwards' Olive Tablets Get at the Cause and Remove It

Dr. Edwards' Olive Tablets, the substitute for calomel, act gently on the bowels and positively do the work.

People afflicted with bad breath find quick relief through Dr. Edwards' Olive Tablets. The pleasant, sugar-coated tablets are taken for bad breath by all who know them.

Dr. Edwards' Olive tablets act gently but firmly on the bowels and liver, stimulating them to natural action, clearing the blood and gently purifying the entire system. They do that which dangerous calomel does without any of the bad after effects.

All the benefits of nasty, sickening, gripping cathartics are derived from Dr. Edwards' Olive Tablets without gripping, pain or any disagreeable effects. Dr. F. M. Edwards discovered the formula after seventeen years of practice among patients afflicted with bowel and liver complaint, with the attendant bad breath.

Olive Tablets are purely a vegetable compound mixed with olive oil; you will know them by their olive color. Take one or two every night for a week and note the effect. 10c and 25c.

**RUB-A-COLD****Wipes Out That Pain**

Headache, bad cold, cough? Nature's warnings. Something wrong; these are first signs. Feed them. Apply RUB-A-COLD.

Erase such ills from the system. Unchecked they quickly grow into pneumonia or influenza.

Rub-a-Cold, the old reliable family remedy, effective with its penetrating feature, goes in after the trouble.

Ends coughs and colds through the skin—straight to the roots—stirs new blood into play—scatters congestion—downs impurities—sends Nature to heal.

Applied outside, it goes inside, acts at the base of trouble. It's magic salve that hits the spot. For colds, croup, asthma, eczema, burns, sprains—quick relief. Children's everyday ills eliminated. Keep it handy.

**Thinks High Flight Can Be Made Around Globe in 36 Hours**

NEW YORK, Dec. 9.—Europe in six hours and a trip around the world in a day or two was predicted by Brigadier-General William Mitchell, chief of training operations of the United States air service, in an address to the American Flying club No. 11 East Thirty-eighth street.

Two inventions, both conceived and perfected in this country and both already tested out at the government field at Dayton, Ohio, were the basis for General Mitchell's prediction. These are the turbo-booster, to make the motor efficient at great heights, where the pilot must feed his lungs with oxygen from a tank and the variable pitch propeller, a speed gear for high altitudes.

WARNING

Storms of unknown intensity are predicted from December 14th to 28th. Are you fully protected against fire and tornadoes. Look up your insurance and let us go over the matter with you to see that you have proper protection. EBBY, SUGG & CO. 12-2-tf.

Bring your clean cotton rags to the Ada News office. We will pay you 3c a pound.

THE DAY NURSERY OPEN FOR BUSINESS

The DAY NURSERY will open today at 420 East Main with everything running nicely.

Our troubles were certainly soon over when we got into touch with a live wire. We began talking about the DAY NURSERY nine days ago thru the ADA EVENING NEWS and in nine days we had landed our friends, branded our enemies and gotten into possession of our choice location. And we are now ready for business with fine music for the children and everything to make little folks happy, the music being furnished by A. D. Coon.

We wish to invite the farmers' wives to bring their children and leave them with us in the DAY NURSERY while they do their shopping.

The only thing we are worrying about just now is when will the telephone company move our phone and connect us up with the world again. Next to the gas company I wish to thank our telephone company for quick service.

Thanking you all together for kind consideration shown me,
ANNIE PARKS.

Mrs. W. A. Hawn, district manager of the Woodman Circle, left yesterday for Shawnee after attending the Woodman meeting held here Monday evening.

Captain Fred Guest.

Ulster will shortly have a new government qualified by county option if expectations in circles close to the cabinet are realized, and Captain Guest is slated to be the first governor general. He is chief Liberal whip in the house of commons and a brother of Lord Wimborne. Captain Guest married a daughter of Henry Phipps of New York in 1905.

PONTOTOC COUNTY GOOD ROADS ASSN. TO MEET ON JAN. 6

A meeting of the Pontotoc County Good Roads Association will be held Tuesday, January 6th, at 1 o'clock P. M., sharp, at the Court House at Ada, and all good roads enthusiasts of Pontotoc county, farmers, laboring men, business men and professional men, are earnestly requested to be present, as business of much importance will be transacted at this meeting.

The war is now over and we must get busy and make sure that some of the main roads running through Oklahoma passes through Pontotoc county, and with a united effort of all the citizens of our county we can get one of the proposed roads without cost to us.

Our government is now looking for a first-class postal route, they want such a route from Kansas City across Oklahoma into Texas, the proposed Oil Cities Highway Route. I am informed, is just what the government wants, and we in Pontotoc county must get together and secure the proposed Oil Cities Highway Route. We can do it without cost to us.

Everybody remember the date and come to Ada.—Dr. L. M. Overton, President Pontotoc County Good Roads Association.

Story of the Cable Car.

In 1873, on August 1, the first cable car in the world was put into operation at San Francisco. The inventor of the cable system was Andrew Hallidie. The cable cars were introduced into Chicago eight years after their appearance on the Pacific coast and in 1883 were adopted in New York, Washington and Philadelphia and afterward in London.

A MESSAGE

Important message for you.

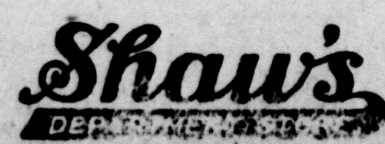

Our assortment of suits and overcoats is now at its best. Come in at your earliest convenience.

We'll be waiting for you at the usual place.

Suits from \$17.50 to \$50, and overcoats from \$15 to \$40.

P. S. Just received a new lot of shirts and neckwear.

RATIFY THE LEAGUE IS PLEA OF DR. SCOTT

The league without reservations if possible, but the league with reservations if necessary, was the position taken by Dr. A. C. Scott of Oklahoma City yesterday afternoon in his address at the First Christian Church. He was speaking under the auspices of the Twentieth Century Club at their invitation to discuss the league of nations.

That the league is a non-partisan question and should be so considered was the speaker's assertion, referring to the fact that the three leading exponents of the league are Mr. Taft, Elihu Root and Charles E. Hughes, the three strongest men in the party opposing President Wilson. Dr. Scott himself is a life-long republican and favors the league as written at Versailles.

Every thing in the original covenant that Senator Lodge objected to was stricken out at the conference said the speaker. He then explained with scholarly accuracy the details of the league plan and answered many of the common arguments against it. That England would have six votes in the league is no longer believed save by the ignorant and no longer argued except by the vicious was the assertion of the speaker. Everyone knows that the vote in the supreme council must be unanimous and that each nation has only one vote in the council. The assembly is a non-voting body, agrees on nothing, votes on nothing and settles nothing. It simply discusses world questions and gathers data for the assistance of the council.

While a strong believer in the covenant as it came from the conference, Dr. Scott said that it is the duty of every friend of the league to accept such reservations as are necessary to insure its ratification. No reservation should be insisted on, however, that would necessitate the return of the covenant to the conference, which would still further delay at a time when immediate action is imperatively necessary to bring peace and order back to the world.

Dr. Scott is a speaker of rare ability and made a fine impression on the audience. After his lecture a committee of three was appointed to write to Oklahoma's senators and to Senator Capper of Kansas urging the speedy ratification of the covenant.

Judge McKeown Better.

That Congressman Tom McKeown is better is the news reaching Ada from Washington where the congressman is reported to be ill of typhoid. A telegram to Judge McKeown's father states that the crisis has passed and that he is now improving. This will be welcome news to the judge's many friends in Oklahoma who have been apprehensive since learning of his illness.

Stock Markets

Kansas City Stock Yards, Dec. 8, 1919.—Following last week's uncertainty in the fuel situation, today's receipts of cattle were much larger than expected, and the market was weak to 15 points lower for beef grades and unevenly lower for stockers and feeders. Hogs opened 25 to 50 cents lower, because active with the loss about regained before the close. Sheep and lambs were 25 to 50 cents higher than the low close of last week.

Today's Receipts.

Today's receipts were 29,000 cattle, 20,000 hogs, and 8,000 sheep, compared with 19,000 cattle, 4,000 hogs and 2,000 sheep a week ago, and 33,000 cattle, 28,654 hogs and 5,200 sheep a year ago.

Beef Cattle.

In proportion to total receipts of cattle, killing grades were relatively scarce with quality plain. The best and plainest grades sold at steady prices, and the plain to fair grades were 10 to 15 cents lower. About the same price change was reported in cows. Weather conditions were rather severe and trade moved slowly. No choice to prime fat grades were offered and good cows were scarce. A good many Colorado cattle arrived from a western market. Veal calves were steady.

Stockers and Feeders.

Trade in stock and feeding cattle was dull, owing to weather conditions. Prices in most cases were off 25 cents. A good many Panhandle, New Mexico and Colorado stockers were offered. Stock cows and heifers were 25 cents lower.

Hogs.

With hog receipts here 20,000, and 56,000 in Chicago, the market opened 25 to 50 cents lower, with an early top of \$13.25. Active demand by local packers brought about a rally later, and closing quotations were nearly steady Saturday. The final top was \$13.50 and the bulk of the hogs sold at \$12.75 to \$13.35. Average prices here remained higher than elsewhere.

Sheep and Lambs.

Active demand prevailed for fat sheep and lambs and the market was quoted 25 to 50 cents higher than last Friday. Killers bought freely and the offerings were cleaned up by noon. Fat lambs sold mostly at \$15.25 to \$15.65 and fat ewes \$8.50 to \$8.75. Very few stock and feeding sheep or lambs were offered.

Horses and Mules.

Following last week's liberal receipts and lower prices, receipts in the horse division were smaller than a week ago, and the auction opened at steady prices. Mules were in fairly liberal supply and quoted steady.—Charles M. Pipkin, Market Correspondent.

Pavement Pickups

Mrs. W. N. Mays and Mrs. Ann Boone left on the Santa Fe this afternoon for an extended visit in Oklahoma City where they will be

the guests of Mrs. Sam Hooker and Mrs. Galen Crow.

Mrs. E. O. Bowen of Marshalltown, Iowa, spent yesterday in the city, leaving on the Frisco for Hickory to visit her son H. C. Bowen there.

Miss Verda Crews of Vanoss, returned to her home yesterday after spending a few days visiting friends in the city.

Mrs. C. D. Reeves formerly of Ada returned yesterday to her home in Byng after a visit with Mrs. Chas. Reeves.

Settling that big problem— What to Give Him for Christmas

Nearly every woman has a question like that to answer at Christmas time; usually she has to do the shopping for all the men in the family. She knows how, too; knows what men like; the right colors and styles.

Here at this store we have a special Christmas service for women. It includes a large selection of the very finest merchandise—Hart Schaffner & Marx clothes; high grade furnishings, hats, shoes.

Our selling force is at your service; they'll help you solve the problem of what to give him. Here are a few suggestions:

Hart
Schaffner &
Marx suits and
overcoats

Shirts, Handkerchiefs,
Gloves, Silk Socks,
Neckwear, Silk and
Wool Mufflers.

WAGE TANGLE BAD IN BRITAIN ALSO

LLOYD GEORGE SAYS CABINET CANNOT GRANT DEMANDS OF LABOR FOR MINE NATIONALIZATION.

By the Associated Press

LONDON, Oct. 10.—No sooner was the railway wage prices surmounted than the demand of British miners for the nationalization of all mines in the United Kingdom confronted the cabinet. Premier Lloyd George informed a deputation yesterday that the government was unable to adopt the proposals made by the coal commission headed by Sir John Sankey, and the miners are greatly dissatisfied. Frank Hodges, secretary of the Miners' Federation, said after the Premier's statement at yesterday's conference that "the government's attitude had created a very grave situation," and the utterances of other labor men indicate that they universally share this view.

From quoted statements of prominent labor leaders it is apparent that they not only believe nationalization desirable but are convinced there will be unrest in the labor world until it has been granted. It appears to be very impressive that if extreme action is necessary to enforce their demands it will not only be the miners who will strike, but trade unionists generally.

SENATE COMMITTEE MAKES BIG AERIAL APPROPRIATION

By the Associated Press

WASHINGTON, Oct. 10.—The senate military committee voted unanimously today to recommend an additional appropriation of \$15,000,000 for army aircraft construction in order that the plans of the air service to establish routes to Panama, Alaska and even to Asia may be carried out.

CHOIR PRACTICE AT THE FIRST CHRISTIAN CHURCH

The choir of the First Christian Church will meet for practice at 7:30 this evening. A full attendance is desired. We are glad to have additions to our singing force. Every choir chair should be filled every Sunday morning and evening.—C. V. Dunn, Pastor.

FOOD ADMINISTRATOR PUTS EMBARGO ON SUGAR SHIPPING

By the Associated Press

NEW YORK, Oct. 10.—Eastern and Gulf refiners were notified today by the United States Food Administration that effective Oct. 15 and until further notice, they are not to ship or deliver sugar to any point west of Pittsburgh and Buffalo and north and west of the Ohio river. The order was issued because of the scarcity of cane sugar.

KILLING FROST VISITS STATE OF NEBRASKA

By the Associated Press

LINCOLN, Neb., Oct. 10.—Bad weather prevailed throughout Nebraska today, a killing frost in the western and northwestern parts being reported to the weather bureau. At Valentine, Neb., the temperature was 12 degrees above zero.

Negro Leaders Held for Race War in Arkansas

LITTLE ROCK, Ark., Oct. 10.—Four negroes, alleged leaders of the negro uprising in Phillips county last week, were arrested at Winchester, Ark., yesterday, according to a dispatch from that place. Officers believe that one of the prisoners, T. L. Dixon, owner of considerable land in the area known in literature of the Progressive Farmer and Household Union as T. L. Duker, president of the union. Another prisoner, named Rogers, is said to have been local secretary of the organization at Winchester. The other two prisoners are W. M. Mixon and Henry Davis. They will be sent to Helena to appear before the committee investigating the negro uprising.

First Advertisement.

Although the first periodical paper which contained news in England appeared in May, 1622, the first newspaper advertisement published does not seem to have been until nearly twenty-five years afterward. The advertisement related to the sale of a book "applauded by the Clergy of England."

New Zealand Lumber Vanishing.

At the present rate of increase in the consumption of native lumber in New Zealand it is estimated that the supply of standing timber will last not more than 30 years.

Let a Want Ad sell it for you.

H. S. GRIDSTERS IN HOLDENVILLE

EXPECTED TO CAPTURE FIRST GAME ON FOREIGN SOIL. GET READY FOR HARD TUSSELL.

By the Associated Press

Charlie Rayburn and his fifteen stalwart high school gridsters left here at 11:30 today for Holdenville where they expect to out boot and out heave the slippery pig skin this afternoon and hang up another scalp for the local institution. It is reported that the Holdenville boys are playing an aggressive game this season, but the locals, coming fresh from an overwhelming victory over Coalgate, believe that nothing can stop them but the end of the field.

The line-up for this afternoon's game will probably be about the same that started the game here last week against Coalgate. These eleven youngsters displayed such good form, that Coach Rayburn will more than likely give them another chance this afternoon to bring the fire works. However, on the last minute he may change his plans, the softness of the field having something to do with who starts.

The game is important in that it will demonstrate who will be given places in the line-up next week against one of the strongest teams in eastern Oklahoma, Okmulgee. The rosters as well as the members of the team are looking forward to this game here with much anxiety and pleasure. If Ada can win today and then take Okmulgee down next week, the locals ought to have little trouble in capturing the honors of this part of the state.

OKLAHOMA SHOWS GOOD AT DALLAS

JUDGING OF AGRICULTURAL EXHIBITS AT DALLAS STATE FAIR WILL BEGIN TODAY.

DALLAS, Tex., Oct. 10.—While the banner county exhibit at the state fair has not been ascertained, as the judging, which will begin today, has been delayed by shipments slowed up on account of traffic congestion, visitors at the agricultural building may see one display fresh from triumphs at fairs in a neighboring state. McCurtain county, in the extreme southern corner of Oklahoma, has sent its entry which carried away first honors at the Muskogee fair and second prize at the Oklahoma City fair.

Some of the Texas representatives say they are glad the visiting display is here solely for exhibition purposes, as they believe it would be well up in the procession if it were competing for the money prizes.

"Since our chief town, Idabel, is only 150 miles from Dallas, while Oklahoma City is 300 miles distant, we consider ourselves in Dallas' trade territory and thought we would send down a display" said L. G. Herron, County Agricultural Agent, who is in charge of the booth. "Dallas is our wholesale market and many of our merchants and other citizens are visiting the state fair. I wish it could be arranged at later fairs for a competition to be held between entries of counties from other states."

The exhibit is arranged in strict accordance with the regulations of this fair, although not a money contender. By the artistic use of grains of corn of different colors, "victory" designs are worked out and they are placed within a huge "Y" made of cotton, further carrying out the idea. These crops, Mr. Herron said are the staples in the Oklahoma county which is the third largest in the state.

TULSA WOMEN ARE MESSENGER "BOYS"

TULSA, Oct. 10.—Women are displacing the small and irresponsible boy as messenger carriers in Tulsa. Women tried out during the war when boys were hard to get, have made good and the policy of women messengers has not been abandoned with the end of the war, according to H. B. Gale, manager of the local Western Union Telegraph company.

The women make from \$18 to \$30 a week and are used exclusively in the downtown districts where the responsibility of the boys causes much confusion, Mr. Gale said.

Don't forget where to get your oil and gas leases, assignments, releases, etc. Ada News office.

STEEL STRIKE LEADERS CONFER DURING SENATE PROBE

Leaders of steel strikers in conference at Washington.

Several leaders of the steel strike are in Washington, whither they went week before last to testify before the senate labor committee. The photo shows two of them, W. F. Tighe (left) and W. Z. Foster (right), in conference with the strikers' attorney, W. B. Rubin. Tighe is president of the Amalgamated Association of Iron, Steel and Tin Workers.

WOMEN MOBILIZE FOR BIG RED CROSS DRIVE

The war achievement of the American women who are being mobilized for the Third Red Cross Roll Call, November 2 to 11, in but one of the numerous activities by which they backed up the country's fighting men, is revealed in the announcement by the Red Cross that in two years they produced nearly \$100,000,000 of garments and surgical articles.

It is estimated that 8,000,000 women and girls participated in this tremendous work and it is among them largely that the Red Cross is now recruiting 1,000,000 workers who will assist in the enrollment of members for 1920.

These women, affiliated with over 3,700 chapters, toiled early and late in homes and Red Cross workrooms throughout the land, and to their efforts was largely attributed the morale maintained in Allied Countries through the assistance given the suffering civilian populations, in addition to the cheer and comfort their labor carried to the American troops.

The betterment of health conditions, the improvement in community life, and the training of children for citizenship, furnish just as patriotic a motive for service today as did the making of bandages a year ago. It is hoped that the women of the 655 chapters of the Southwestern Division, comprising Missouri, Arkansas, Texas, Kansas and Oklahoma, who produced articles worth more than \$13,000,000 in addition to many hours of service, will rally as valiantly to the peace call as they did to the call of war.

NEGRO TAKEN TO MCALESTER TODAY FOR SAFE KEEPING

By the Associated Press

MCALESTER, Oct. 10.—C. L. Tilley, the negro arrested on suspicion of having murdered J. M. Williams, Oklahoma City street car conductor, on Oct. 1, was brought to the state penitentiary here for safe keeping at an early hour this morning.

AN ABLE MINISTER HERE NEXT SUNDAY

Dr. Odell, president of Henry Kendall College at Tulsa, will visit Ada again next Sunday and occupy the pulpit at the First Presbyterian Church. Dr. Odell preached here last Sunday, delivering two of the ablest sermons ever heard in this city. He is a man of rare attainments and is recognized as one of the leading divines of the south-west.

"I. of J." Meeting.

During the absence of C. V. Dunn, leader of the "I. of J." boys, the meetings will be held regularly on Monday evening at 5 o'clock. Some prominent men of Ada will speak to the boys during Mr. Dunn's absence. The boys are asked to be present at every meeting. Monthly dues should be paid after Mr. Dunn's return. Any of the boys desiring to purchase uniforms may do so by going to the Model Clothing Co.

CAPITAL'S DEMAND ON BIG CONFERENCE

OPPOSITION TO THE CLOSED SHOP DEVELOPED TODAY AT BIG CAPITAL-LABOR CONFERENCE.

By the Associated Press

WASHINGTON, Oct. 10.—Opposition to collective bargaining and the closed shop were among the twelve fundamental principles outlined by the group representing capital and presented today to the National Industrial Conference here. Sympathetic strikes, black lists and boycotts were believed to be "intolerable, anti-social and immoral."

In public utility service it was proposed that the state impose such regulations as would assure continuous operation, at the same time providing adequate means for the prompt adjustment of complaints and disputes.

For the settlement of disputes in private industry it was proposed that each establishment be regarded as an industrial unit with adequate machinery for the adjustment of misunderstandings between employees and the managements.

WASHINGTON, Oct. 10.—After an hour's recess the National Industrial Conference decided to adjourn until next Tuesday. Meantime a general committee of fifteen will consider the proposals presented by the three groups, Capital, Labor and the Public.

MICKIE SAYS

YEAH, ONCE IN A WHILE SOME BIRD GETS SORE 'N COMES IN HERE 'T BUST OUR HEARTS 'N 'IN' BUSINESS BY STOPPIN' HIS PAPER—BUT WE GENERALLY MAN AGE T' SURVIVE SOMEHOW TILL HIS WIFE COMES IN AN' ORDERS IT AGIN

WEATHER FORECAST

Fair tonight and colder. Frost and probable freezing in the northern and northwestern part of the state tonight. Sunday fair and cold.

REV. DUNN AND WIFE TO ATTEND NAT. CONVENTION

The national convention of the Christian Churches will be held in the city of Cincinnati, Ohio, Oct. 13-21. Some very important issues will be discussed at this convention. The question of merging our missionary societies, of open membership, of church federation, of the Inter-Church movement, will probably be discussed, and also others of equal importance. C. V. Dunn, minister of the First Christian Church in Ada, will represent the church at the convention. Mrs. Dunn will attend him if she is able. She is now suffering severely from an infected hand, and has been for several days. They will leave Saturday at 11:38.

After the convention they hope to be able to spend about a week at the home of Mr. Dunn. His mother lives at New Philadelphia, Ohio, and the church has very kindly granted him leave for another Sunday that he may spend it with his mother. During his absence the work of the church will go on. There will be preaching every Sunday morning at eleven o'clock and there will be service each evening. Prof. M. L. Perkins will speak next Sunday morning. There will be a fuller announcement in tomorrow's paper in reference to the coming Sunday.

The minister hopes that the members will attend the services every time. Prayer meeting next week will be in charge of the Ladies' Missionary Society and the Ladies' Aid Society, and will be devoted to consideration and prayer for these two organizations. On the following Wednesday evening the meeting will be under the charge of the Sunday School, and will be devoted to the interests of the Sunday School. The meeting on Wednesday evening, Oct. 29, will be in charge of the Christian Endeavor Society and will be devoted to consideration and prayer for the organization. The members are asked to support these meetings. The hour of beginning is eight o'clock.

JOHNSON BACK FOR VOTE ON SHANTUNG

By the Associated Press

WASHINGTON, Oct. 10.—The return to Washington next Tuesday of Senator Johnson, Republican of California, from his western speaking tour in opposition to the league of nations, is considered by a number of senators of envying the possibility of a speedy vote on the amendment to the Shantung provision of the peace treaty. All attempts of leaders to bring the Shantung amendment to a vote has failed of unanimous consent owing to the desire of Senator Borah, Republican of Idaho, and others to have the Californian back in Washington before the vote is taken.

Masons, Notice.

Ada Lodge No. 119, A. F. & A. M., will meet at 8 o'clock this evening for work in the Fellowcraft degree.—Miles C. Grigsby, W. M.

TEACHER-CATHOLIC CONTEST SATURDAY

RAIN AND MUD MAKE POSTPONEMENT OF TODAY'S GAME HERE NECESSARY; TOMORROW'S LINEUP.

The East Central-Catholic University football game was postponed from this afternoon until Saturday afternoon on account of the heavy rain last night and the consequently muddy field. If the weather permits as the weather man has promised, the game will be played tomorrow afternoon, beginning promptly at 3:30 o'clock.

The Teachers are in good shape for the game and they are "raring" to go. Coach Newcomb believes that his eleven warriors will demonstrate marked superiority over the Catholic brethren.

The probable lineup for tomorrow will be:

Catholics	East Central
Bamadi	LE
Kennedy	LT
Basin	LG
Ben	C
Van Meter	RG
McCormick	RT
Glover	RE
Klonute	LH
Bedoka	QB
Edmond	RH
Toumrvn	FB
	Vernon

The Normal will also likely use Kidd, Medlock, H. Roach, Hodges and Halley. The visitors will use McGivney on one of the ends part of the time at least. The other substitutes have not been announced.

MR. BOLEN DENIES BEING CANDIDATE

SAYS HE WON'T RUN AGAINST MCKEOWN FOR MANY REASONS—HERE ARE SOME OF THEM.

Judge J. W. Bolen said to a News reporter, upon inquiry as to whether he would be a candidate for congress against Hon. Tom D. McKeown:

"I have no intention of running against Tom McKeown for congress, and never had. Where this story originated, I am unable to determine. I am inclined to think it was originated by parties who do not cherish very highly my political welfare, and adopted this method to make the personal friends of Tom McKeown feel unkindly toward me."

"I would not run against Tom two reasons:

"1st. He would beat me; however, some of my friends are so abundantly kind as to insist that I could win. I have seen the lonesome look of several fellows after that smiling Irishman got through with them. He always comes in with the votes."

"2nd. I cherish and reverence true friendship, and would not make a race against a man whom I regard as highly as I do Tom D. McKeown. We came to Ada about the same time; courted the same girls; dreamed the same dreams; wore unclean shirts because we could not get the clean ones out of the laundry; fought the early battles together, and cemented a friendship that dates from boyhood, and I would consider it a most cold blooded, unmitigated selfishness for me to contest him in a primary election, even if I thought I could win, which, however, I do not think."

"At my age, the most cherished thing in the world, aside from family, is friendship, and it is going to be my endeavor to live worthy of such sacred friendship as I feel exists between us."

"So you can set the question at ease. I shall not run against Tom McKeown."

PHYSICIANS SATISFIED WITH PRESIDENT'S CONDITION

By the Associated Press

WASHINGTON, Oct. 10.—President Wilson had another restful night and his physicians are satisfied with the progress he is making, said a bulletin today by Rear Admirals Grayson and Spitt and Dr. Sterling Ruffin of this city.

FRENCH MAJOR AND THREE OTHERS WOUNDED IN RIOT

By the Associated Press

PARIS, Oct. 10.—A French major and three soldiers were wounded in a riot at Sarrebruck in occupied Germany on Tuesday, according to a dispatch received here today. The riot is described as having grown out of labor demonstrations against the high cost of living in which Spartan forces joined.

FLIERS FACED BY FIERCE WEATHER

THE FLYING PARSON IS LEADING IN THE RACE BUT ALL SUFFER WEATHER DIFFICULTIES.

By the Associated Press

CHICAGO, Oct. 10.—Army aviators today continued their transcontinental air race despite unfavorable weather over a large part of the course.

Interest today centered in the race between Lieut. B. W. Maynard, the flying parson, en route to San Francisco and Capt. L. H. Smith who is headed for Mineola from the Pacific coast. Lieut. Maynard arrived at Cheyenne, Wyoming, last night but broke the radiator of his airplane and was not able to leave on schedule this morning.

Capt. L. H. Smith, Lieut. E. C. Kiel and Major Carl Spatz, leaders in the eastbound group, were at Rock Island, Ill., at noon today, being held up by bad weather in Chicago.

Capt. H. C. Drayton maintained second place in the group of aviators racing westward and Lieut. L. S. Webster was third.

CHICAGO, Oct. 10.—Prospects of bad weather over much of the course faced the fliers who today remained in the cross country airplane race from Mineola, N. Y., to San Francisco and return. Cold weather and snow storms in the west and rains in the eastern half of the country yesterday interfered with the schedules.

Hundreds of miles ahead of other west bound fliers, First Lieut. Maynard, the flying parson, was ready early today to resume his flight to the Pacific coast from Cheyenne, Wyoming. Captain L. H. Smith, well ahead of the contingent that started from San Francisco, after reaching the Omaha, Neb., control station, expected to add many miles to his total of 1,460 flown in two days.

Of the forty-seven machines that started on the race from Mineola and the fifteen that left San Francisco, six apparently were forced out of competition yesterday.

OMAHA, Neb., Oct. 10.—Captain L. H. Smith of San Francisco, piloting a De Haveland four and who is leading the western aviators left here at 7:43 this morning for Des Moines, Iowa.

OMAHA, Oct. 10.—Captain H. C. Drayton, driving a De Haveland Four, No. 47, arrived here at 8:30 o'clock this morning having made the trip from Des Moines in 1 hour and 13 minutes.

DES MOINES, Ia., Oct. 10.—Captain L. H. Smith, eastbound leader in the transcontinental air race, landed here at 8:50 o'clock and left for Rock Island at 9:22.

CHEYENNE, Wyoming, Oct. 10.—Lieut. B. W. Maynard, who has been leading the westbound aviators in the transcontinental airplane race, broke the radiator of his plane in alighting here today and will be slightly delayed, it was announced this morning.

Cotton Receipts Less This Year Than For Last

The News is just in receipt of a communication from A. W. McKeel of Roc, special agent for the Department of Commerce for this district, which give the following information on cotton ginning:

"There were 3,883 bales of cotton, counting round as half bales, ginned in Pontotoc county from the crop of 1919 prior to Sept. 25, 1919, as compared with 4,950 bales ginned to Sept. 25, 1918."

In other words, up to Sept. 25 of both last year and this, 1,067 more bales had been ginned last year than have been this year. It is believed, however, that this condition can be accounted for by reason of the fact that the crop is known to be several days later this year than last.

Too Good for Daily Use.

We must have a weak spot or two in a character before we can love it much. People that do not laugh or cry, or take more of anything than is good for them, or use anything but dictionary words, are admirable subjects for biographies. But we don't care most for those flat-pattern flowers that press best in the herbarium.—O. W. Holmes.

Let a Want Ad sell it for you.
